| • Node.js | |

EDUCATION

Code Institute, Manchester, Expected in 04/2022

Web Development

The main weakness of being self taught is getting feedback and direction. I have to complete a total of four projects for the code institute.

I am using this as a way to get feedback on real projects that I would like to launch in the future.

Project One: Online language Courses (Javascript) Project Two:

Tradesmen web development (+ SEO) (Vue)

Project Three: IT recruitment (web scraping + machine learning)

Project Four: Ecommerce Store (React)

The projects are very different because the lockdown has taught me to be as versatile as possible not put all eggs in one basket.

Zero To Mastery, Online, 02/2021

Web Development

University of Lancaster, Lancaster, 07/2013
